4863
Roller Wrapping Tape

Product Description

Tesa 4863 is made of a silicone coated cloth and a rubber adhesive. Its embossed surface allows it to resist sticky substances and offers a non-slip effect for smooth surfaces.

Main Applications

- Roller wrapping applications
- Printing and textile industries
- Manufacturing
- Web-based processing and converting industries

Technical data

	Metric	Imperial
Thickness	620 µm	24.4 mil
Adhesion to steel	3.0 N/cm	27.4 oz/in

Backing	Type of Adhesive	Liner
Silicone coated cloth	Natural rubber	PP

Note: The physical and performance characteristics shown are averages obtained from tests performed according to ASTM and PSTC test methods. MPI Matco can make no warranty of any kind as to the results of the adhesive product use. The information published here is representative of laboratory research on these products and is believed to be reliable. Values should not be used for specification purposes. Each user should perform their own tests to determine the suitability of the product for their intended application and shall assume all risks and liabilities in connection therewith. Materials should be stored at 70°F (21°C) with 50% relative humidity.
