357 Duct Tape

Product Description

357 is a polyethylene coated cloth backed tape with a rubber adhesive. It offers high tensile strength, abrasion, puncture, moisture, solvent and chemical resistance as well as an aggressive adhesion.

Main Applications

- Waterproof repairs
- Packaging, bundling, seaming, sealing and securing
- Plastering applications
- Contractor and manufacturing uses

Technical data

	Metric	Imperial
Thickness	330 µm	13 mil
Adhesion to steel	10 N/cm	95 oz/in
Elongation at Break	13%	13%
Tensile Strength	88 N/cm	50 lb/in
Operating Temperature	4 to 93 °C	40 to 200 °F
Long Term Temperature Resistance	93 °C	200 °F

Backing

PE cloth

Type of Adhesive

Natural rubber

Colour

Note: The physical and performance characteristics shown are averages obtained from tests performed according to ASTM and PSTC test methods. MPI Matco can make no warranty of any kind as to the results of the adhesive product use. The information published here is representative of laboratory research on these products and is believed to be reliable. Values should not be used for specification purposes. Each user should perform their own tests to determine the suitability of the product for their intended application and shall assume all risks and liabilities in connection therewith. Materials should be stored at 70°F (21°C) with 50% relative humidity.
