

1932W Foam Tape

Product Description

1932W is a double coated conformable polyethylene foam with high tack acrylic adhesive. It has a permanent adhesive that adheres to a variety of substrates while maintaining good heat and chemical resistance.

Main Applications

- General purpose mounting, gasketing and sealing applications
- Signs, nameplates, appliances, automotive applications and more

Technical data

	Metric	Imperial
Thickness	813 µm	32 mil
Elongation at Break	290%	290%
Tensile Strength	7.2 to 8.2 N/cm	4.1 to 4.7 lb/in
Operating Temperature	≤116 °C	≤240 °F
Long Term Temperature Resistance	116 °C	240 °F

Backing

PE foam

Type of Adhesive

Acrylic

Liner

Yes

Colour

Note: The physical and performance characteristics shown are averages obtained from tests performed according to ASTM and PSTC test methods. MPI Matco can make no warranty of any kind as to the results of the adhesive product use. The information published here is representative of laboratory research on these products and is believed to be reliable. Values should not be used for specification purposes. Each user should perform their own tests to determine the suitability of the product for their intended application and shall assume all risks and liabilities in connection therewith. Materials should be stored at 70°F (21°C) with 50% relative humidity.
