6030
Packaging Tape

Product Description

6030 is a packaging tape for outer packaging of commercial cartons. It offers high tensile and adhesion strength. It is resistant to moisture, diluted acids and alkalies, short exposure to heat (up to 70°C) and low temperatures (down to -20°C).

Main Applications

- Outer packaging of commercial cartons
- Reliable and secure seal for large cartons and plastic containers

Technical data

	Metric	Imperial
Thickness	51 µm	2 mil
Adhesion to steel	2.0 N/cm	18.3 oz/in
Tensile Strength	36 N/cm	20.6 lb/in
Operating Temperature	≥-20 °C	≥-4 °F
Short Term Temperature Resistance	70 °C	158 °F

Backing

PVC film

Type of Adhesive

Natural rubber

Colour

Note: The physical and performance characteristics shown are averages obtained from tests performed according to ASTM and PSTC test methods. MPI Matco can make no warranty of any kind as to the results of the adhesive product use. The information published here is representative of laboratory research on these products and is believed to be reliable. Values should not be used for specification purposes. Each user should perform their own tests to determine the suitability of the product for their intended application and shall assume all risks and liabilities in connection therewith. Materials should be stored at 70°F (21°C) with 50% relative humidity.
