

72222 Plate Mounting Tape

Product Description

Tesa 72222 is a soft density foam plate mounting tape designed for mounting flexographic printing plates. It is equipped with a medium tack acrylic adhesive that allows sufficient plate bonding, easy plate demounting and fair tape bonding towards sleeve side. Adhesive bond strength will not increase over time. Its foam characteristics include highly compressible foam, long lasting recovery properties as well as low thickness tolerances. This plate mounting tape is suitable for plates thicknesses from 45-67 mils.

Main Applications

- Medium tack surface characteristics
- Sufficient plate bonding
- Easy plate demounting
- Fair tape bonding towards sleeve side
- Red color coding

Technical data

	Metric	Imperial
Thickness	508 µm	20 mil
Backing	Type of Adhesive	Liner
PE foam	Tackified acrylic	PP

Hardness

Soft

Note: The physical and performance characteristics shown are averages obtained from tests performed according to ASTM and PSTC test methods. MPI Matco can make no warranty of any kind as to the results of the adhesive product use.
