

1516B Foam Tape

Product Description

1516B is a polyethylene foam tape with good strength, good thermal insulation, excellent chemical resistance and low water absorption.

Main Applications

Technical data

	Metric	Imperial
Thickness	508 µm	20 mil
Elongation at Break	99-142%	99-142%
Operating Temperature	-40 to 71 °C	-40 to 160 °F
Long Term Temperature Resistance	71 °C	160 °F

Backing

PE foam

Type of Adhesive

Tackified acrylic

Liner

PP

Colour

Note: The physical and performance characteristics shown are averages obtained from tests performed according to ASTM and PSTC test methods. MPI Matco can make no warranty of any kind as to the results of the adhesive product use. The information published here is representative of laboratory research on these products and is believed to be reliable. Values should not be used for specification purposes. Each user should perform their own tests to determine the suitability of the product for their intended application and shall assume all risks and liabilities in connection therewith. Materials should be stored at 70°F (21°C) with 50% relative humidity.
