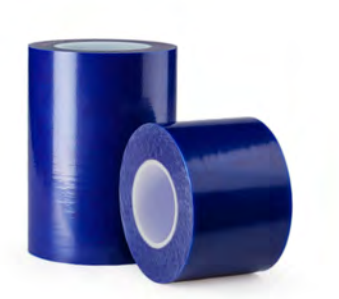
20LXB-0012
Surface Protection Film



Product Description

20LXB-0012is a high tack blue duct wrap film consisting of a blended polyethylene self-wound carrier and a custom formulated water based adhesive. It offers 60-day UV resistance and a clean removal with no adhesive transfer. It provides good abrasion, tear and puncture resistance.

Also available in clear as 20LXC-0012.

Main Applications

- Contamination protection of ducts and pipes made of aluminium, PCD coated iron, black iron, and galvanized, aluminized, galvannealed and stainless steel

Technical data

	Metric	Imperial
Thickness	51 µm	2 mil
Adhesion to steel	1.3 N/cm	12 oz/in
Elongation at Break	325%	325%

Backing

Blended PE film

Type of Adhesive

Water based acrylic

Note: The physical and performance characteristics shown are averages obtained from tests performed according to ASTM and PSTC test methods. MPI Matco can make no warranty of any kind as to the results of the adhesive product use.
