

HDLR25

Double Coated Tape Dispenser

Product Description

The HDLR25 is a hand-held dispenser for double-sided tapes up to 2 inches wide on a 3-inch core. A sturdy design, heavy-duty construction, a corrugated blade to cut the heaviest of double-sided and foam tapes, and a geared positive rewind system for the liner make this double-sided tape dispenser perfect for laying carpet, signage, trade shows, sample and demonstration boards, and specialty packaging. It has an adjustable brake and a natural rubber roller for smooth application.

Characteristics

- Corrugated blade cuts the heaviest tapes
- Re-winder for the waste liner
- Adjustable brake
- Natural rubber roller for smooth application.
- Perfect for laying carpets, rugs, signage, trade shows, samples, demonstration boards and displays and specialty packaging
