1838
Foam Tape

Product Description

1838 is an industrial, closed cell PVC foam. Due to its low density foam it remains pliable at temperatures of -20°C to 82°C.

Main Applications

- General purpose applications
- Applications requiring a seal for tight radius curves

Technical data

	Metric	Imperial
Thickness	9.5 mm	375 mil
Adhesion to steel	3.3 N/cm	30 oz/in
Elongation at Break	150%	150%
Application Temperature	-20 a 82°C.	-4 to 179 °F

Backing
PVC foam

Type of Adhesive
Acrylic

Liner
Paper

Colour

Note: The physical and performance characteristics shown are averages obtained from tests performed according to ASTM and PSTC test methods. MPI Matco can make no warranty of any kind as to the results of the adhesive product use. The information published here is representative of laboratory research on these products and is believed to be reliable. Values should not be used for specification purposes. Each user should perform their own tests to determine the suitability of the product for their intended application and shall assume all risks and liabilities in connection therewith. Materials should be stored at 70°F (21°C) with 50% relative humidity.
