

DM2C

2-component Manual Dispenser

Product Description

DM2C is a manual dispenser designed for dual-cartridge systems. It delivers up to 4.5 kN of thrust at 8 mm/s, making it suitable for dispensing high-viscosity materials. Configured to work with 10:1 and 4:1 systems — no extra components or adjustments required. The tool features an epoxy-coated steel frame and a cast aluminum handle, providing durability and operational stability.

Features

- Cast aluminum handle
- Epoxy-coated steel frame
- Sintered alloy catch plate

Benefits

- Designed for prolonged use throughout the workday
- Supports efficient high-viscosity dispensing
- Provides stable thrust over time with wear compensation

Specifications

Weight	1.8kg / 3.8lbs
Cartridge Holder Length	200mm / 7.9 in
Maximum Thrust	4.5kN (8mm/s)
Handle Material	Epoxy Coated Aluminum
Frame Material	Epoxy Coated Steel

Cartridge Capacity	400mL (14.0oz)
Cartridge Ratio	4:1, 10:1
Mechanical Advantage Ratio	25:1
Viscosity	High
Colour	Black/Blue
