

DM2C

Manual Dual-Cartridge Dispenser

Lightweight, cost-effective solution for high-viscosity adhesive dispensing

DM2C is a **manual dispenser** built for reliable performance in high-viscosity, dual-cartridge applications. With a reinforced steel frame and cast aluminum handle, it balances strength and maneuverability—ideal for repetitive manual use.

Its **wear compensation system** ensures stable thrust output over time, while the sintered steel catch plate supports secure, precise operation. Configured to work with 10:1 and 4:1 systems — no extra components or adjustments required.

Offered as a low-cost alternative to higher-thrust models, the DM2C delivers consistent performance where budget and reliability must go hand in hand.

Specifications

Weight	1.8kg / 3.8lbs
Cartridge Holder Length	200mm / 7.9in
Maximum Thrust	4.5kN (8mm/s)
Cartridge Capacity	400 mL
Cartridge Ratio	4:1, 10:1
Mechanical Advantage Ratio	25:1
Viscosity	High
Handle Material	Epoxy Coated Aluminum
Frame Material	Epoxy Coated Steel
